HOSTILITIES BETWEEN POLES AND RUSSIANS WILL CEASE ON FRIDAY

Poles Captured 52,000 Prisoners During The Past week—
French General Takes Command of General Wrangel's Troops.

WARSAW, Oct. 6.—Dispatches from Riga say that hostilities between the Poles and Russian Soviet forces will cease Friday under an armistice signed by the Poles and Soviet peace delegates yesterday.

PARIS, Oct. 6.—Dispatches from Warsaw and Moscow to-day announce that an armistice between Soviet Russia and Poland has been signed.

RIGA, Oct. 6.—Polish official communications say the Poles captured during the past week fifty-two thousand and prisoners, one hundred and eighty

guns, one thousand one hundred machine guns, seven armored trains, twenty-eight locomotives and much other material.

COPENHAGEN, Oct. 6.—The French General Weygand has left for South Russia to take supreme command of the anti-Bolshevik troops of General Wrangel, the National Tidende says to-day.

The wise business man advertises in the newspaper that reaches the greatest number of readers. Just try an ad in THE ADVOCATE.

STAG HUNTING IN ENGLAND

This is an unusually interesting photograph, showing what the hunter is the "end of a perfect

day." The occasion for this photograph was at the Devon and Somerset Staghounds meet in Eng-

land early in September. It took eight men to drag this big stag from the stream.

AN ANGRY CROWD INTERRUPTS PROHIBITIONISTS MEETING IN ENG.

LONDON, Oct. 6.—William (Pussy-foot) Johnson, temperance advocate from the United States, narrowly escaped from an angry crowd which interrupted one of his temperance meetings last night at Reading, Berkshire, and tried to break through the locked doors of the hall to reach him, according to a Reading Dispatch to the Evening News to-day. The crowd also threw bombs containing foul smelling chemicals. The police had to be called out to prevent serious disorders. Johnson escaped with detectives by the rear exit of the hall through a graveyard and tried to break through the locked doors of the hall to reach him, according to a Reading Dispatch to the Evening News to-day. Johnson was reported from Wales recently.

Mayor of Wexford Is Arrested By Military

WEXFORD, Ireland, Oct. 6.—Richard Coris, Mayor of Wexford, and Edward Foley, merchant, who were acting as Judges at Wexford administration court here yesterday were arrested by the police, after the military had surrounded the building.

PASSENGERS AND FREIGHT TO AND FROM NORTH SYDNEY.

Baseball Talk

NEW YORK, Oct. 6.—In a pitching duel between the leading hurlers of the National and American Leagues, Duffell Grimes, Brooklyn's spit ball ace, to-day shut out Cleveland three to nothing in the second game of the world's series at Ebbett's field. His ability to hold the Indians in check when they would have meant runs, marked his superiority over James Bagby, whom Manager Speaker selected to add the second game to the Cleveland spring. The victory which placed the dodgers alongside Tris Speaker's Indians was due almost entirely to the excellent pitching of Grimes, who had the heavy hitting representatives of the Junior League baffled throughout the game.

COULD NOT RESIST FOOD

Delicious Macaroni Tempted Italians Too Much

ANCONA, Italy Oct. 6.—The Ancona hunger strike is over. A platter of delicious macaroni induced the strikers quickly to abandon their fast. The hunger strike was started by persons charged with being involved in anarchist riots last June as a protest against delay in their trial.

Chinese Takes The Veil

MONTREAL, Oct. 6.—A ceremony unique in the history of Canada took place to-day when Kieu Tehou, a Chinese girl from the city of Canton, received the white veil of a novice of the Order of Soeurs Missionnaires D'Immaculate Conception. Interest was added to the event by the fact that it was the Bishop of Canton, Mgr. Juebiert, who officiated at the ceremony, being now in Montreal on his return to China from Rome.

Lieutenant Shot Dead

LONDON, Oct. 7.—Lieutenant Larle of the Infantry was shot dead by unknown persons at Collinstown Airdrom county Dublin Wednesday says despatch to "Daily Mail."

Shot In Shoulder

CORK, Ireland, Oct. 7.—Third engineer Russell of the United States steamer West Kader was shot through right shoulder last night while returning to the ship. Russell says it was expanding soft nosed bullet that struck him and his companion.

The "Bismarck" Fire

LONDON, Oct. 6.—Despatch to Lloyds from Hamburg says that one room above engine store-room of great steamer Bismarck was destroyed by fire which broke out on the vessel Tuesday.

PETROGRAD LOSES MANY THOUSANDS

Get Out In Order To Escape Starvation.

LONDON, Oct. 6.—Dispatches to the Exchange Telegraph Co. and Central News from Helsinki, Finland, quote Russian reports of an increasing exodus from Petrograd in order to escape threatened starvation. Dispatches say that two hundred thousand persons have left the former capital and that outgoing trains are crowded.

Russian Gold O.K.

WASHINGTON, Oct. 7.—Receipt shipment of first Russian gold to enter United States since nineteen sixteen was imported "for an entirely proper commercial purpose," according to Department of Justice which has investigated. Shipment aggregating three hundred and thirty nine thousand had come into country with knowledge and consent of authorities.

CANADA AND FUEL SUPPLY

A Larger Measure of Control Will Rest With Provinces

OTTAWA, Oct. 6.—It is learned that regulations regarding the control of the fuel situation by the railway commission will to a great extent follow the lines of those which proved effective during the shortage of recent winters. In one important particular, however, they will be different from the regulations previously in force. In view of the fact that conditions as to fuel supply for the next six months vary a great deal in different provinces the new regulations will be made optional. A province may adopt them or not as the provincial authorities decide. It necessarily follows that a larger measure of control will rest with the provinces.

Sinn Feiners Propose Dominion Home Rule

LONDON, Oct. 7.—Leaders of Sinn Fein have intimated that although they desire complete separation from England they would not oppose the broad measure of Dominion Home Rule if it can be proved that the majority of the people desire it, says the "Daily Mail." This intimation is given to the Irish Peace Council, a body of moderates from all parts of Ireland, which has just completed a plan for Dominion Home Rule, says the newspaper. The Council claims to have obtained sufficient support to make the scheme workable and, the Mail asserts, will send a deputation to Lloyd George to consider the initial steps of the scheme.

Sheriff Is Shot

CHARLESTON, Va., Oct. 6.—One deputy sheriff was killed, three others were wounded seriously and two miners were shot in a fight early tonight at Blair Logan County, Va., on Little Coal River, according to information received here by Fred Mooney, Secretary of district number seventeen United Mine Workers of America.

Mayor McSweeney

LONDON, Oct. 6.—The physician is quoted as saying that Masweeney's condition is generally unchanged to-day. The bulletin of the self-determination league says he passed a bad night.

GLOVER AND CANCER CURE

Will Give Information To The Proper Authorities Only.

TORONTO, Oct. 6.—A meeting of the Toronto Academy of medicine was held to-day to deal with the case of Dr. J. T. Glover who was declined to furnish information regarding his Cancer cure to the Academy. Dr Glover says he will furnish a report to proper parties at the proper time, according to his friends.

Stole \$38,000.00

VICTORIA, Oct. 6.—Griffith Hughes, prominent newspaper man, pleaded guilty to the charge of stealing thirty-eight thousand dollars from the David Spencer department store, for which he was accountant, and was sentenced to five years in the penitentiary, when he was brought before Justice Morrison in the Assize court to-day.

Divorce In High Life

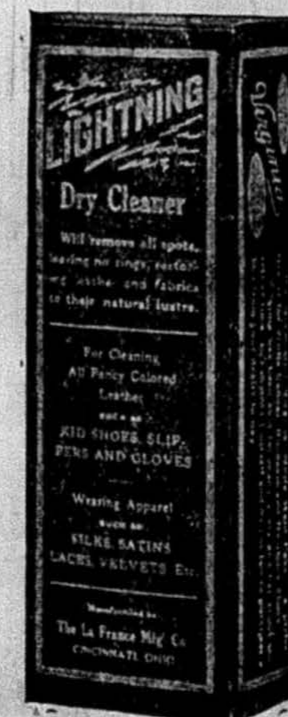

LONDON, Oct. 7.—The Duchess of Marlboroughs petition appears in list defended cases for hearing divorces court at early date.

House Of Assembly, 1920 Official Proceedings.

TUESDAY, May 18th, 1920.

SIR MICHAEL CASHIN (Continued)

If the ice was off the coast north of Capt St. Francis to-day there would not be a hhd. of salt left in St. John's. The northern bays are blocked with ice and it is just as well that they are because if the fishermen were able to get here at present there would not be sufficient salt to give them. I asked the minister of shipping some time ago in reference to the salt question what was going to be done and he said that there was 30,000 tons in the country. But when you come to take St. John's with only 15,000 hhd. somebody is to blame. When Sir John Crosbie was minister of shipping he was always on the job with regard to the salt situation and was constantly in touch with the shippers and firms to make certain that sufficient salt would be obtainable in the country when needed for the fishery. If the position is as grave as it appears to me then I don't know where we are as far as salt is concerned. June and July are the two principal months for the shore fishery and if we go short of salt during these two months the results will be disastrous. As far as coal is concerned we can always find a substitute, because in the outports wood is chiefly used for household purposes and St. John's is practically the only place to be considered. But, salt is the main-spring of 80 per cent of the industries of Newfoundland. If it is true that there is at present only 15,000 hhd. of salt in St. John's where we are going to land. There's no use in coming in here and introducing rules and regulations for the benefit of our fisheries if nothing has been done to secure salt. It is indeed a grave situation. I don't know if the minister can tell us of the existence of stocks at Halifax or St. Pierre which we could obtain in a hurry if necessary. At the present time we have but one twentieth of the required quantity. In St. John's last year we had as much as the whole Island contains to-day. One of the reasons given by the minister of shipping yesterday is that salt would not be in the same demand in the northern bays this year. Last year there was an exceptionally great herring fishery in the northern and western bays and this year the minister is resting content on the assumption that this will not be the case this year. Perhaps the hon. minister is not aware that he is forgetting and sidetracking an industry that is worth a million-dollars to the colony. In his opinion the herring fishery is gone. With all the rules and regulations that have been introduced nothing has been done in this direction and one of our greatest industries is about to be neglected.

Mr. Speaker resumed the chair. The chairman from the committee reported that they had considered the matter to them referred, had made some progress and asked leave to sit again on to-morrow.

On motion this report was received and adopted and it was ordered that the committee have leave to sit again on to-morrow.

Pursuant to order and on motion of the hon. the minister of justice the bill entitled "an act to provide for the lighting of streets in the outports" was read a second time and ordered to be referred to a committee of the whole house on to-morrow.

Pursuant to order and on motion of the hon. the prime minister, the bill entitled "an act to confirm a contract between the government and the Susu shipping company, limited," was read a second time and ordered to be referred to a committee of the whole house on to-morrow.

The remaining orders of the day were deferred.

It was moved and seconded that when the house rises it adjourn until to-morrow at three of the clock in the afternoon.

The house then adjourned accordingly.

WEDNESDAY, May 19, 1920.

The house met at three of the clock in the afternoon, pursuant to adjournment.

Hon. the prime minister tabled the annual report of registrar general of births, deaths and marriages, 1919.

HON. MIN. MARINE & FISHERIES

—Mr. Speaker, I beg to present a petition from the people of Open Hall, King's Cove and Keels regarding the modification of the Prohibition Act. The petitioners seek a modification. My own position is I will not support any modification of the act unless the modification comes from the supporters of prohibition. If they want to have the act modified it will be a pleasure for me to give it my support. I have a great deal of sympathy with the prayer of the petitioners asking that scripts be done away with, and that a bottle be given once in a while,

but such a request must come from the prohibitioners, the people who have put the prohibition laws on the statute book. I have been trying to get some of the prohibitioners to do something in the way of modification. I do not think that these petitions will receive any support from this side of the house, unless the prohibitioners themselves become interested. One reason why I would like to have something done, by the prohibitionists to supply a bottle once in a while in order to stamp out the making of moonshine. We cannot put machinery into effect to stop the manufacture unless something else is substituted for it, but the people who put the law on the statute must seek its modification and not the people who opposed prohibition.

Mr. Sullivan gave notice of question.

Mr. MacDonnell gave notice of question.

Pursuant to notice and leave granted, and on motion of Hon. the Minister of Marine and Fisheries, the house resolved itself into a committee of the whole to consider certain resolutions regarding the exportation of codfish from this colony.

Mr. Speaker left the chair. Mr. Hibbs took the chair of committee.

HON. MINISTER MARINE AND FISHERIES—Mr. Chairman, in submitting these resolutions I will endeavour to explain them briefly. The intention of the government is to appoint a board to carry out the fish regulations. This bill provides the machinery, and the machinery consists of five men. The minister of marine and fisheries will be president, one member will be selected by the Board of Trade, and the three remaining members will be selected by the Governor-in-Council. The duty of the board will be to advise the Governor-in-Council regarding the export of codfish, the issuing of licenses. The board will regulate the terms upon which fish is exported, and the quantity of fish going to any market. With the rules as they are at present the minister has great powers, but under this act, discretionary powers are taken from him. He takes advice from the board by controlled opponents. The regulations may not be necessary this year, but the fact that we have an act is no reason why it should be used. It provides the machinery in case it is needed, and we would have saved a lot of worry and less if we had the machinery during the past two years. The board will not have the power to issue licenses. Every exporter will receive a license who pays a fee of \$50 for twelve months. It carries an additional tax of ten cents per qtl. on dry fish and five cents on soft fish. This money is handed back to the trade in way of expenditure for scientific research and inspection of fish if necessary and also in connection with the payment of trade agents. The government is now prepared to hand over \$150,000.00 to be spent for this purpose. It will mean that \$450,000.00 is taken from the trade as an export tax and license tax.

People will say that there is no need for this bill, but where I ask is the harm of placing a measure like this on the statute book? There are times when it is absolutely imperative to regulate the export of codfish, because there are times when eight or ten cargoes are being sent to the same market when two would be sufficient to supply the demands, and it will be readily understood that while with two cargoes going into a market like Oporto for instance, we would get a good price, eight or ten cargoes going into the same market, under the same conditions, must result in bringing prices down very considerably. I do not say that I should be prepared to do anything in this way as drastic as the measures that had to be taken last fall, for we all know the grave necessity that existed then for taking a firm stand on the matter of fish exports. Everybody was shivering in their shoes because nobody knew what was going to happen next, and things looked anything but hopeful for our getting out of an unpleasant situation without a great deal of difficulty and losses. Even the Government themselves when they went out of power, did not know where the thing was going to end, and I may say without fear of contradiction that they were hopelessly at a loss to know what the ultimate outcome would be. These conditions were brought about by the fact that a number of irresponsible men started selling fish to the Consorzio without any consideration as to quantity or requirements with the result that they were responsible for the cutting of prices and the general demoralizing of the markets.

A few days ago, when these resolutions had been drawn up, I submitted

them to the trade with the request that they consider them and make any recommendations or suggestions for improvements that in their opinion would make the bill more effective in the general interests of the trade, but they condemned the resolutions although a large percentage of them had endorsed the regulations last fall and they passed the following resolution at the meeting held to discuss the matter of certain resolutions. I accepted their resolutions as to the price of the license and made it as they suggested, fifty dollars. The unfortunate part of it is that false impressions are created as to the probable effects of these regulations and we find someone writing in the Herald who goes further even than the objectors amongst the trade and says "only one supporter could be found for the proposed resolution and with this single exception resolutions were unanimously adopted to the effect that if anything of the kind foreshadowed were to be attempted all supplies would be stopped." Now there is nothing whatever in the resolutions passed at that meeting to that effect, but here is a definite statement gone broadcast, that has not a shadow of foundation in fact.

House of Assembly OFFICIAL PROCEEDINGS

(Continued from page 2.)

What I take exception to is that a report of what took place was not sent to the papers so as to avoid any such misstatements of this kind. As to the stopping of supplies, it will be found that the sooner this bill is passed the sooner will supplies be given out, for we know very well that people are not going to withhold supplies merely because steps are being taken to protect the export trade of our colony. Of course we will not have as much supplying this year as we had in 1918 or in 1919, and personally, I think that the curtailment of it to some extent would not do any harm, but so far as its being affected by the prices likely to be obtained is concerned, I would venture to state that we will get just as much for our fish this year as we got last year and for Labrador No. 1 fish I believe that we will get more than last year's price. We must have a day of reckoning, it has to come sometime, and 1920 is as good a time to have it as any other. It is necessary that we should have such a day of reckoning every seven or eight years so that we may be able to see just where we stand. If we do have a short fishery, the fishermen will get good value for their catch, and if we have 1,300,000 qts. this year we will get as much for it as if we had 1,500,000 qts. and the men who would be catching the other 200,000 qts. will be away making good money. I think the more fishermen there would be away from the fishery this year the better for prices generally.

Now with regard to our knowledge of the fisheries. Anybody who knows the facts are aware that we know nothing at all about them. Some years ago we had a man named Neilson come here to teach us something about them, but he was jaded by opposition to his work till he died and all efforts were negated. The day is coming when scientific knowledge of our fisheries will be absolutely necessary and at present we know practically nothing in this respect. If one were to take the hon. members of this house down on a wharf to watch the tomcods swimming about, there would not be four or five amongst them who could tell you for certainty whether or not these tomcods could ever grow into large fish. The other day a petition came into my department with reference to the prohibition of fishing on certain grounds in the vicinity of Comfort Cove. There is very deep water in this particular place and it was a good ground for turbot. A man went out there and put down his trawl for turbot with the result that he found that there was an abundance of codfish there. The water was 200 fathoms deep and the fish had remained there all the winter. We know very little about the fisheries from a scientific standpoint.

What I propose is that a first class man be appointed as superintendent

MIXED PUZZLE BY WALTER WELLMAN

On the blackboard are four pictures. One represents the young lady's first name. Another represents the city where she lives. A third represents the state, and a fourth gives you the first name of her fiancé. See if you can make them all out.

Answer to yesterday's puzzle: BITTER NIGHT, WHEN HER ON. CHAT, SWALLOW.

of fisheries and when the estimates come down you will find provision made there for \$5,000 to pay such a man. The only difficulty will be in procuring him and whether we are to look for him in Canada, in England, or in Norway. Of course the best man is unquestionably to be found in Norway, but so far as I am concerned

I would have some misgivings about bringing a man here from Norway to handle the investigating and scientific research of our fisheries because we would not want him to use the information that he would gather here to our own detriment. In Canada, there is quite a strong feeling with regard to the matter of research work

of this kind and the sentiment there seems to be in favour of having it carried on in an international way. A conference is to be held in Vancouver in June to go into the matter fully and they have invited a representative of this colony to attend, but whether this will be possible or not it is difficult to say. I will not be able to go there. One of the subjects to be discussed will be scientific research. In this I think we ought to co-operate with Canada and work together because it would be greatly to our advantage to do so. Canada's fishery problems are practically identical with ours, and for that reason also it would benefit us to work in co-operation with the Canadian government. The boat Daisy which has been purchased from the British government is a trawler and when she comes here we can use her for the purpose of making experiments on our unknown fishing banks. I am informed that there is a considerable range of banks extending from Baccalieu to the Funks and from the Funks to Belle Isle and we have heard of alien bankers going out there and getting big catches of halibut. Now if we could make some experiments with regard to this, it would well repay our efforts. We cannot expect private concerns to have their vessels make these experiments, but when we have this boat, we can have this done. I hope that we will turn over a new leaf in all these matters.

We know least of all about that from which we earn our living. Mr. Grieve speaking in the Upper House said that Mr. Hawes and Mr. Job went to Port Union to discuss fish regulations with me last November. I must make an emphatic denial of that charge. Neither Mr. Hawes nor Mr. Job went to Port Union to discuss the regulations on November 1st. They went there wholly and solely for the purpose of visiting the plant and we did not discuss the regulations at that time. We had no idea that we were going to be returned at that time. But Mr. Hawes and Mr. Job did go to Port Union some time after, about November 18th, when we were in power and discussed the regulations with me. They both gave me valuable advice in connection with that matter, and I think that the statements made in the upper house by Mr. Grieve are unfair. As far as Mr. Job is concerned, he has been of good use on the advisory board and has always been willing at all times to give the best advice in his possession regarding the fish exports. He is a most useful representative of the trade and does not spare himself in any endeavour to assist the trade or the country.

Now I do not put much dependence on the late resolutions of the Board of Trade, because they had previously met in March and had resolved that the regulations were good, and they did not want the price of fish fixed except by conference, and I do not see why we should meet all the exporters and discuss the price of fish from time to time. If you ask my candid opinion on these regulations, I would say that they should be enforced because they have this season benefited the Colony to a tremendous extent. Nobody knows what would have happened if these regulations had not been in force. In conversation with one of the men who attended that meeting on Friday morning, he said "Mr. Coaker, if you abandoned these regulations there is no knowing what would happen." I asked him if he were not one of the men who voted for these resolutions, and he said yes but he did not get a chance to discuss them and did not know where he was. I refused to go to the exporters' meeting because I said that it was a matter for themselves to decide. If you want to improve them, make any suggestion and if acceptable, I am only too pleased to consider their bona fides.

There's another matter I would like to discuss. Several bills have passed this house and have gone to the upper house and been referred to a select committee and all those bills are in the best interests of fishery conditions in this country. If the trade will work with me in promoting the interests of the fisheries I will be only too glad to co-operate, but if they fail to do this they can have the department of fisheries conducted in the future as in the past, a department for allocating marine grants and supplying lobster labels. I do not want to be there if they do not intend to co-operate with us. I am there because I think I can do some good in straightening out the kinks in fishery matters. If they do not help, I am willing to get out. So far as selling my fish is concerned, I can sell it if they can. I have agents on the other side who can sell my fish at all times.

AMERICAN CAPITAL FLOWS TO CANADA

Some Two Hundred Millions Yearly
Is Estimated Amount.

OTTAWA, Sept. 24.—That American capital is coming into Canada at the rate of two hundred millions a year is an opinion entertained in official circles here in the light of information secured. The money is not being applied to industry alone though much of it goes there but, as well, to Canadian securities, Federal, Provincial, municipal and railway.

The fact that ninety dollars of United States money is the equivalent of one hundred of Canadian is a big factor in inducing the influx of investment.

According to a statement submitted to a recent gathering here out of some two hundred and seventy-five millions invested in the Canadian Pulp and Paper industry now in process of

great expansion, 80 per cent. or thereabouts is American. Efforts are being made to induce British capital to be attracted of the British investor, but the great obstacle is not the unwilling attitude of the British investor, but the adversity of existing exchange conditions.

A recent financial statement issued in New York placed at five hundred and twenty-four millions the amount of Canadian loans in the United States in a variety of securities. This was exclusive of what is invested in Canadian war bonds.

Letters for publication in this paper should be marked plainly "FOR THE EVENING ADVOCATE." Correspondents will please note this. Letters from readers are always welcomed.

ST. JOHN'S, NEWFOUNDLAND, THURSDAY, OCT. 7th, 1920.

EDITORIAL COMMENT

THE COAL SITUATION

We do not know if the regulations spoken of in the message from Ottawa to-day will effect the arrangements already made, but it is unlikely. We understand that the requirements for Newfoundland have been secured so that no shortage is anticipated; the matter has been taken up much in advance of last year, when the New Government found themselves in the middle of November faced with the problem of getting supplies. This year the Government have already attended to the matter, and coal for the railway and for the A. N. D. Co. has been secured, also sufficient for St. John's, and the Outports. Since last winter when they found coal scarce, the Outports have looked after themselves splendidly and may be depended upon to see themselves through. St. John's would account for about 45 thousand tons and the greater proportion of this will be here before the end of the year. The factories were notified some time ago that they would have to look out for themselves this winter, so that the ordinary consumer may not go short, and generally the situation is well in hand and no such trouble as last year is anticipated. However, those who can store coal are asked to do so, in order to give as much room in the coal-sheds for winter supplies as possible. The fact that we are able to get coal for just about half that European countries are willing to pay is a circumstance upon which we may congratulate ourselves, but Canada believes in supplying her own people (and Newfoundland) first at a normal rate, in spite of the temptations of export trade.

PORT UNION ACTIVITIES

A gentleman who had visited Port Union for the first time tells us that it is there one finds what constructive ability Mr. Coaker possesses. The way in which the whole plant is laid out, the general appearance of the stores, the care taken to use every bit of timber and so prevent waste, are matters which strike the visitor.

Fish handling has reached the pinnacle of efficiency, and up-to-date appliances for unloading and loading either vessels or steamers cause no unnecessary delays and make it a pleasure for freighters. That a business equalling the Colony should have resulted from a small meeting of 19 at Herring Neck in 1908 is a proof of the solidarity of the F. P. U. and the confidence of the Fishermen in Mr. Coaker. No fisherman who is honest in his opinions will say to-day that Mr. Coaker is doing him injury by reason of the Fish Regulations. The Fishermen trust Mr. Coaker, and they know for a certainty that if he were not in the Government to-day, if he had not put in force the Fishery Regulations, the price of fish would not be six dollars a quintal now. They see that the Tory press do not offer any hope of higher prices, and so while they can sell their fish at the price "Coaker makes it," they are content and thank Providence that there is a Coaker to act for them.

ACTING FOR THE PRODUCER

Until recently Canada had a Wheat Board which fixed a price for the Farmers' Wheat and generally protected their interest. This Board's activities were suspended a month or so ago, but not with a great deal of protest from the farmers, and with the price of wheat going down, these farmers will protest more and more, as they say that they must get enough out of their labour to make it a paying venture. The apple growers in British Columbia are appealing for a protective tariff which would prevent United States apples being dumped into Canada and underselling their produce.

We quote these instances to show that the trend of thought is changing from the idea that prices should be at the mercy of those who gamble in commodities rather than be fixed with consideration for the producer. The basic value of an article should be the living wage of the man who produces it. That is why the Canadian farmers want control of their wheat, their apples and other produce, free from the manipulations of speculators who would dump surplus stocks at low prices.

That is why the basic idea of Fish Regulations is to obtain a fair price for fish for the man who produces our wealth. And all true Newfoundlanders say Amen, and will fight for a living wage for our producers.

Mr. Coaker Claims

Substantial Damages from the Trade Review.

Yesterday afternoon a writ from the Supreme Court claiming damages to the amount of \$10,000 was served on Mr. Dugald Munn proprietor and David R. Thistle, editor of the Trade Review, because of a libellous article which appeared in that paper last Saturday. The article charges in effect that Mr. Coaker as President of several union-enterprises, and who is now the Minister of Marine and Fisheries

and as such chairman of the Advisory Board was using his office to the benefit of the co-operative firm of which he is the president. In other words that his company is doing business contrary to the Fishery Regulations. This Mr. Coaker denies and claims \$10,000 for such false and wrongful imputations. Further than stating the bare facts that such an action has been taken we must refrain from further comment until the case is heard.

DUBLIN, Oct. 7.—Two men kidnapped at Lisdoonvarna on September twenty were returned last night to Hotel where captured.

PRAISES THE "ADVOCATE"

(To the Editor)

Dear Sir,—The destructive criticism that is handed out to the country and the world by certain sections of the Press is a matter that is viewed altogether too lightly by the reading public.

Newfoundland in common with the rest of the world is passing through times that call for views that are sane; and methods should be applied to social, political, and commercial activity that will stimulate men to higher achievement.

I want to offer sincere commendation for the way the "Advocate" is handling the difficult task of keeping its readers, both at home and abroad well informed with actual facts regarding conditions in this country and also the effort to dispel public uneasiness.

Defeated political agitators seem to think and would have us believe that nothing but chaos and stagnation will be ours as a result of the people's choice. Away with such petty talk!

Now Mr. Editor it is not my intention at this writing to ventilate my views further. This much I would add, may the "Advocate" long continue to publish constructive thought.

READER.

"Vengeance Gang"

GAIRO, Egypt, Oct. 6.—Twenty five of the so-called "Vengeance Gang" alleged to be Anti-British Society organized to conduct assassinations of political personages have been convicted of conspiracy by court before which they had been on trial for several weeks. Sentence will be promulgated later.

Strike In Portugal

LONDON, Oct. 6.—Madrid Correspondent of Reuters Limited says that intelligence from various points of frontier indicates that general strike apparently of revolutionary character has broken out in the whole of Portugal.

"Lloyd George" Magazine

LONDON, Oct. 6.—First number of new Lloyd George Liberal Magazine which is to be issued monthly with object of supporting Government Policy appears to-morrow. It contains special interview with Premier devoted to defense of coalition Government. Incidentally Lloyd George professes the belief that the United States will formally join League of Nations after the elections, and asserts that when Germany also enters, which will soon be as she gives proof of her good faith, League will become an effective instrument instead of as now mere League of Allies.

Open Trading

WASHINGTON, Oct. 7.—Adequate world trade development by Great Britain and United States requires that both nations lay their cards on the table Sir Auckland Geddes, British Ambassador said yesterday at dinner given Chamber Commerce United States to representatives British Chamber Commerce.

FACTS AND FANCIES

Syria has no factories.
The dairy industry in Alberta has more than trebled in eight years.
Asbestos is found in all parts of China.
Two-thirds of the soil of Austria is untitled.
Vienna has 526 factories doing little or no work.
The world has 6,000,000 acres of tobacco land.
The Red sea is the warmest body of salt water.
African women use shells of ostrich eggs to carry water.
Best Persian lambskins are produced in the Shiraz water.
Japanese carpenters are now paid about 5 cents a day.
Belgium has only 4,258 farms of more than 100 acres.
The Krupp works are now turning out textile machinery.
A chamber of commerce has been established in France.
The great majority of Belgian farms are operated by tenants.
Tea blending is almost a monopoly of Mincing lane, London.

NOTICE!

Owing to the high cost of materials used in the manufacture of Gas the St. John's Gas Light Company is compelled to announce that the price of Gas as from October 1st will be at the rate of \$3.50 per thousand cubic feet.

It is hoped that when assistance becomes available, through the Government, that conditions may so improve as to permit of a reduction on this price.

ST. JOHN'S GAS LIGHT COMPANY.

A Tribute

There passed peacefully away at Brooklyn, B.B., in the home of her only son, Dr. Geo. B. Cross, on the 4th inst. Mrs. Geo. Christian. Deceased was born at Lower Island Cove, Nov. 29, 1846, was the daughter of John Lewis, Esq., J.P., of that place where she spent the last 4 years of her life with her youngest sister, the late Mrs. A. G. Hudson. When her son, the doctor, who had been overseas with the Canadian army, returned home and made his home in Brooklyn, he took his mother to whom he was greatly attached, to live with him, but before a month of reunited and contented peaceful life had been lived together, the reaper death entered the new home and severed the bond that binds so dear.

Mrs. Christian spent the greater part of her life in Trinity where she married first John Cross, Esq., Dr. Cross's father, who for many years occupied the position of bookkeeper in the firm of Messrs. Bremner and was a man respected and beloved by all who knew him, as was also her second husband, Geo. Christian, Esq., who was customs official at Trinity until his death about 5 years ago. Deceased was a member of a large family of six sisters and two brothers. John and Herbert Lewis who are now living at Island Cove are her brothers. The late Mrs. Alex. Marshall of St. John's, with whom she spent most of the early part of her life, was a sister. The Marshall family to whom she became endeared and respected till the last loved their Aunt Christian. She was an excellent woman in her day, a good neighbor and a good Christian lady not only in name but in every deed.

According to her earnest desire and entreaty her remains will be taken to Trinity on Thursday the 7th inst and interred in the Methodist Cemetery there to await the Morning Call of the Resurrection. Our sympathies go out to Dr. B. Cross and the mourning relatives and friends among whom are her step children Mr. Ronald Cross of St. John's, Mrs. (Rev.) Pickering of Lower Island Cove and Mr. Gilbert Christian of Trinity.

THE WAR BADGES

(To the Editor.)

Dear Sir,—I have the honour to request that you publish this letter as a correction of an article which appeared in the daily press yesterday concerning the new War Badges.

These Badges are not, as stated in the article, issuable only to those who served Overseas. The regulations concerning the issue of the new Badges are, that they will be issued to all men who served in the Royal Newfoundland Regiment and the Newfoundland Forestry Companies, whether at home or Overseas, except to those who have received the Silver Badge, known as "Disability Badge."

Thanking you in anticipation.

Yours truly,

J. M. HOWLEY.

G. W. V. A. MEETING

Club Rooms Will Likely Be Sold And New Building Erected.

The adjourned meeting of the G.W. V.A. was held last night in the T. A. Armoury Lt.-Col. G. T. Carby in the chair; but there was only a fair attendance present. A letter was read from Lt. Col. Bernard tending its resignation to the Association, as one also from Mr. R. Matthews, who has also resigned from the Executive Committee. A letter was also received from His Excellency the Governor regretting the resignation of Mr. Bernard and hoping this his successor will always keep in touch with him as he was always interested in the welfare of the Association.

The meeting then took up the business that was before the club, regarding the disposal of the ground flat of the Association's Club Rooms. Various speakers took part in the discussion and advised the meeting its use every discretion in connection with this matter. After Comrades Garland, Gray, Harris, Byrne, Brien, Thistle and Robertson had spoken, it was proposed by B. Murphy and seconded by Capt. Byrne, that Mr. Matthews be given three months notice, according to the terms of his agreement. On a standing vote being taken the motion was carried. The chairman then ex-

plained to the meeting that the executive had been considering ways and means regarding the financial standing of the institution and he explained that the Association was faced each year with a deficit, and he gave as the reason that the building was unsuitable as club rooms and they were not being patronized, and he suggested that it would be advisable to get rid of it, and with the funds received for sale of same build a new hall that would give the members some place to hold meetings, have social gatherings, card tournaments, etc., Capt. Byrne, Thistle, and Lt. Garland and other speakers agreed with Lt.-Col. Carby and strongly urged upon the meeting to consider this matter. It was then proposed by Comrade Kearley and seconded by Comrade Higgins that a committee be appointed to arrange the sale of the Association's Club Rooms and look for a new site for building purposes.

The motion was carried unanimously. Lt. C. Garland proposed and Capt. Thistle seconded that a committee of five be appointed to arrange sale of building and report progress at next meeting. Carried unanimously. The following committee was appointed: Messrs. Harold Mitchell C. Garland, C. E. Jeffrey, P. Mansfield, W. Thistle, with Mr. J. Higgins who is giving his legal services free of charge, as convenor.

Mr. C. Garland spoke regarding disabled soldiers who have to use special boots and are compelled to pay for same and he proposed and Mr. O. Kearley seconded that the Secretary write the Pension Department in connection with this matter and that those who have already paid for those boots have their money refunded. The motion was carried unanimously.

A letter was read from the Finance Minister regarding the 20% increase for all disabled soldiers stating that this matter was being attended to. It was announced by the Chairman that Mr. Hutchinson, a chartered accountant and returned soldier has offered his services as auditor free of charge which was appreciated by the meeting. After the singing of the National Anthem the meeting adjourned at 10.30 p.m.

AGAINST LEAGUE

Miss Florence King, president of the National Women's Association, of Chicago, in a recent statement said:—"Now that they can vote the women will save the country and keep it out of the League of Nations. Miss King, who is a patent attorney, is the only woman who ever won a case before the Supreme Court of the United States. She also stated that the majority of the women will vote the Republican ticket and elect Harding in order to defeat the League."

FOREMAN WHITE IS NOW BACK ON JOB AND FEELING FINE

"I want to give a little history of my case just to let the public know what Tanlac does for me," said Edward White, of 27 Caroline St., South Hamilton, Ont., a well known foreman for the Dominion Steel Co.

"About two years ago I suffered a complete breakdown brought on by over-work, and it was only when I got Tanlac recently that I recovered my health. We were making engines for the battlefront, and were anxious to turn out as many as possible, so lots of times I worked both night and day. Well, this finally got the best of me, and I just had to go to bed and stay there for a number of days. This left me in such a bad condition that I had no appetite at all, and was so weak that when I walked around I would just stagger. I took electric treatment and all kinds of medicine, but failed to get any better, and I began to think nothing would help me.

"However, Tanlac has completely overhauled me, for it has built me up in every way until I feel like an entirely different person. My appetite is just fine, and I eat good and hearty now at every meal. Why, I've gained eleven pounds in weight, and am back on the job every night working as good as ever. I'll tell you I'm mighty glad to have my health and strength back again, and I simply can't thank Tanlac enough for putting me in such fine condition."

"Tanalac is sold in St. John's by M. Connors; in Gull Island by L. Stockwood & Son; in English Harbor by Jeremiah Pettit; in Bonaville by W. H. House; in Little Bay Island by Edgar D. Jones; in Cape Broyle by J. J. O'Brien; in Keels by John Murphy; in Gander Bay by A. A. Comer; and in Hant's Harbor by John Green.

I. P. P. AND A. UNION

An very interesting meeting of the International Printing Pressmen and Assistants' Union No. 294, was held in the L.S.P.U. Hall Tuesday night. Considerable business was transacted and several applicants were admitted to membership. Recently an invitation was received by the Union to send a delegate to attend the convention held at Pressmen's Home, Tennessee, but the offer had to be declined, as a delegate could not reach there in time. This is the first time that any such invitation has been sent to any union in Newfoundland.

MR. BALLANTINE LECTURES On Church Stained Glass.

Mr. James Ballantine, who is here in connection with installing some stained glass windows in the Presbyterian Church, lectured in the Kirk last night, his subject being "Church Stained Glass." Mr. Ballantine gave a very interesting lecture and dealt historically with the introducing of stained glass in the Churches. His review was well listened to and it is not too much to say that the lecture, though unique here, was interesting and pleasing. Mr. Ballantine, F.S.A., Scotland, is a grandson of James Ballantine the well known Scottish artist and poet. He has designed all the stained windows in St. Andrew's Church and is now contemplating the design for the War Memorial window.

TO-MORROW AND BEYOND

If a vision were given you of your fine boy occupying the highest pinnacle of success you would be proud indeed. But if it were explained that this was only where he would have been had he not failed in a certain paper at school because of bad writing would you not regret bitterly that you had omitted to then provide him with a fountain pen? Fend off this possibility by selecting to-day a perfect pen at the City Club Corner. \$3.00 value for \$2.00.

OBITUARY

EDWARD HUSSEY.

The death occurred Tuesday at his residence 51 Merrymeeting Road of Mr. Edward Hussey, a man well known and respected in the city. The deceased had been for a number of years a trusted employee of the City Council, but some time ago met with an accident which totally incapacitated him and from the effects of which he suffered intensely until death relieved him. Mr. Hussey was a native of Port de Grave though most of his life was spent in St. John's. He was in his 70th year and leaves to mourn him a widow and five children. Mrs. J. Wheeler, Mr. Ben. Hussey and Miss Nellie Hussey of Boston, Mass., and Mr. J. Hussey of St. John's. One son, Sgt. William Thomas Hussey predeceased his parent making the Supreme Sacrifice in the great war. The Advocate extends its condolence to the widow and family.

MRS. GEORGE CHRISTIAN

There died at Brooklyn B.B. on Monday last, Mrs. George Christian, an estimable lady who for many years resided at Trinity. Dr. Bond Cross, her son by her first husband, Mr. John Cross, had taken the practice at Brooklyn B.B. just recently, and she had joined him, intending to establish a home there, but they were together but a few weeks when the Grim Reaper came. Mrs. Christian had not been well for sometime past, but no one expected that the end would come so soon. Her husband predeceased her about five years ago. As a member of the Methodist Church in Trinity Mrs. Christian was always foremost in all good works, and in her hospitable home there was ever a welcome for the stranger or the friend. She was a Miss Lewis of Lower Island Cove and since her husband's death has resided with relatives there. Messrs. Charles Alex. and George Marshall of this city are nephews. The lady was taken to Trinity on Monday, the funeral taking place to-day at that place. To the relatives we offer sincere sympathy.

REID CO'S SHIPS

Argyle no report leaving Placentia for Bay route.
Clyde left Change Islands at 1:10 a.m. yesterday coming to Port Union.
Diana left Brig Bay at 8:40 a.m. yesterday going north.
Earl of Devon left LaScie at 1 p.m. yesterday outward.
Glencoe arrived at Placentia at 2:30 p.m. yesterday.
Homo no report leaving Lewisporte.
Kyle left Port aux Basques 12:15 a.m. Meigle at St. John's.
Saguna anchored under Snowy Shore Tuesday coming south.
Petrel arrived at Clarendville 4 p.m. yesterday.
Sona arrived at Lewisporte 11 a.m. yesterday.
Watchful passed Salvage 10 a.m. yesterday outward.

LABRADOR FISHING SCHOONER

Lost in Greenspond Harbor.
The schooner Percy Wilberforce, 13 tons, of Deer Island, James Oraw, master, on his way home from Labrador with 90 quintals of fish, ran ashore at Greenspond Hr. last night and is a total wreck, crew safe.
The F.P.U. in port:—

The auxiliary schooner F.P.U. which left Port Union at 5 a.m. arrived off the narrows at 1 p.m. and will load general cargo for the fisherman's town. Many people will remember the 2nd F.P.U. She went ashore last fall while trading in Green Bay was successfully refloated last spring, repaired at Carmanville and is now even in better condition than when she left the stocks at Port Union.

MOTHER'S BREAD IS ALWAYS BEST---

But never quite so sweet
quite so nourishing, as when
she bakes with

"WINDSOR PATENT!"

PERSONAL

Mr. Thos. Walsh of Parker and Monro's factory who had been stricken with sudden illness last week is now much improved and it will be only a question of a comparatively short time when he will be about again.

The Rev. Joseph Murphy, D.D., of Brigus, is in town to-day. Dr. Murphy attended the funeral of the late Richard Devereaux yesterday, they were warm personal friends for many years.

Mr. Pierce Hand who was given such a cordial welcome by former classmates of the Christian Brothers' schools, will leave by the express Sunday next for Bermuda. He will be accompanied by his cousin Miss Gertrude Phalen who will spend the winter with him.

"BASSAN" REFLOATED

Yesterday messages were received in the city from Trepassay saying that the S. S. Bassan which went ashore Sunday morning had been refloated and is now safely anchored in Trepassay Hr. The work was done by the Canadian Government ship Lady Laurier. Mr. T. Kennedy who was at the scene returned here yesterday.

MAKING FOR HALIFAX

The Furness Withy Co. received a wireless message yesterday from the S. S. Carolinian stating that she had lost two blades of her propeller and was making for port. A later message stated that owing to the strong N.E. wind it was impossible to make St. John's and that the ship was heading for Halifax. The Carolinian is owned by the Garland Steamship Co. of New York and is a vessel of 4,000 tons register.

ASTRAY IN FOG

Two ladies, sisters, Mrs. Brown of Hamilton Avenue and Mrs. Barron of Bannerman st., went berry picking on Blackhead Road Tuesday morning and enjoyed the day, but on starting to return home in the evening lost their way, a dense fog having settled over the land. After trying in vain to find their way to the city they came across an unused shack and determined to spend the night there rather than being caught in the woods. When night came their friends becoming anxious started to search for them but without success until early yesterday morning when the missing ones were found. They had made themselves as comfortable as possible, kept a good fire going and did not experience any ill effects as the result of their adventure.

ADVERTISE IN THE ADVOCATE

LOCAL ITEMS

A large number of passengers went out by the express to-day, first and second class for Port aux Basques.

The captain of the S. S. Bassan, his officers and crew arrived in the city by the Southern Shore train to-day.

The express with the Kyle's mails and passengers is due here to-night at 9 o'clock. The train was delayed owing to a freight coming off the rails yesterday at South Branch.

ECZEMA

You are not experimenting when you use Dr. Chase's Ointment for Eczema and Skin Irritations. It relieves at once and gradually heals the skin. Sample box Dr. Chase's Ointment free if you mention this paper and send 2c. stamp for postage. Box a box; all dealers or Edmundson, Bates & Co., Limited, Toronto.

The Hon. Treasurer C. of E. Orphanage gratefully acknowledges the sum of \$4.05 from Master Jack Smith, 1 Caribou Terrace, Circular Road, being proceeds of concert given by him in aid of the Orphanage.

Yesterday morning the Western and Central firemen responded to an alarm of fire. It occurred in the residence of Mrs. Chislett, George St. where soot in the chimney ignited. It was quenched by a few pails of water, no damage resulted.

Despite the lateness of the season and the cold weather prevailing, numbers of people from various parts of the city were out in the country yesterday berry picking. Whorts and partridge berries are very plentiful and large quantities were brought to the city, though most of those who gathered them suffered much from cold.

The experience of many of those who go forward shooting partridge over the grounds outside the city, is that the birds are wild and hard to kill. They have been harassed much by people who are engaged berry picking and are hard to kill though the birds are fairly plentiful.

THE "GLENCOE'S" PASSENGERS

The following passengers arrived at Placentia by the Glencoe yesterday:—Mrs. E. M. Edgar, E. Demford, H. Spencer and wife, H. Cooper, and wife, Mrs. Reid, H. Grandy, R. Taylor, J. Ryan, Rev. T. J. Bride, Mrs. E. Hodder, J. J. Pine, F. Wood, D. Clarke, Mrs. S. Rowsell, M. Hollett, B. Bryant, Jas. O'Brien, L. Grant, G. S. Dowden, W. Gellately and wife.

LLEWELLYN CLUB

The annual meeting of Llewellyn Club will be held at Canon Wood Hall to-morrow evening at 8 o'clock, when the reports for last year will be read and the election of officers for the ensuing year will take place. Immediately after routine business has been done Mr. A. B. Morine, K.C., will give an address on "Things to Think About." A cordial invitation is given to any man to attend.

POLICE COURT

A domestic from a northern outpost released yesterday from the penitentiary was before the court again this morning. There being no other place to send here she was remanded for another 8 days to the penitentiary.

Two budding thieves one aged 14 from Central St. and the other aged 16 from Cuddihy St., were convicted this morning of stealing 2 dry goods boxes from the premises of Crosbie & Co. The goods cases were valued at \$1.50 each and were the property of the Hon. John Anderson. They were fined \$5.00 or 14 days each. If caught again their sentence will reach the month stage and probably more.

Two carmen for a breach of the traffic regulations were before His Honor on the 2nd inst. They pleaded guilty and were released on payment of costs.

SHIPPING NOTES

The regular mid-week service will be held in St. Andrew's Church this evening.

The S. S. Elgen has cleared from Indian Tickle, Labrador, taking 11,000 qtls. of codfish for Europe.

The S. S. Lady of Gaspe is due here to-morrow, Friday, from Boston via Halifax.

The American steamer Dertona arrived at Botwood on Oct. 5th from Norfolk with 3,490 tons of coal to the A.N.D. Co.

The S. S. Snelfield it at Port Union and is expected to finish loading to-day and will sail immediately for St. John's.

The schr. F. S. Burgoyne sailed from Twillingate for New York yesterday with 2,200 barrels of split herring shipped by Wm. Ashbourne.

The schr. President Coaker has left Halifax for Port Union with general cargo. The President Coaker brings with her other freight 40 spars for the Shipbuilding Co. at Port Union.

The S. S. Snelfield, which loaded part cargo of Codfish at Blanc Sablon for Job Bros. & Co., is now on her way to Port Union where she finishes her cargo.

The S. S. Bassan went ashore on a mud bank near Trepassay and as far as is known has suffered no damage. Some of the machinery in the engine room, however, is out of order and she cannot come down under her own steam until parts required are supplied so that it is possible she may be towed here.

A QUICK RUN

The schr. Innovation, which will sail to-day for Port Union to finish loading for Brazil, made a splendid run from Sydney to St. John's covering the distance in just 46 hours. She is a fine tern schooner, just 18 months off the stocks and is a very fast sailer.

THE "SAGONA" REPORT

The Sagona wired the Reid Nfld. Co. Tuesday night as follows:—"Tuesday, 6:10 p.m. anchored under Snowy Shore, strong breeze N.E. wind." The message seems to be ambiguous in construction and the belief is that the ship was caught in a N.E. snow storm and anchored under the lee of some headland until it had modified. The ship is now on her way south and is due here next week.

WHAT IT MEANS

What it means to be burnt out no one but the sufferers fully know. Why not fend off this dreadful disaster by insurance? A policy in my office does the trick and at small cost to you.—Percie Johnson, The Insurance Man.

A SUCCESSFUL OPERATION

Mr. Lloyd Chaplin had a wire yesterday from Boston saying that his father Mr. Mark Chaplin had been successfully operated on yesterday in the Peter Brent Hospital, that city. Mr. Chaplin suffers from a rather serious internal ailment and his many friends here will now hope that he will soon return home enjoying his wonted good health.

HOTEL ARRIVALS

At the Crosbie:—Rev. Joseph Murphy, D.D., Brigus; Geo. Kennedy, Avondale; B. W. Kean, Brookfield; Chas. F. Snelgrove and wife, Misses Clarence and Evelyn and Master Ralph Snelgrove, Catalina; G. W. Kempton.

THE CLARE BROTHERS HERO SOLDIERS

Corporal Robert Clare, Regimental No. 210, who with his brother, Lieut. William Clare, joined up and left with the first 500, was taken off the regimental strength yesterday after 4 years and 51 days on the regimental roll. "Bob" shows the scars of time in the trenches. He was over the top July 1st, 1916 in No. 1 platoon and one of the few that survived. He was also at Gallipoli where he fought in all the engagements. In Flanders he received wounds which deprived him of his left leg, but he is just as good a soldier as ever and feels that he did his part. Lieut. Bill fought alongside his brother, and that his services were appreciated will be seen by reading the following official despatch:—

THE WAR OF 1914-1918. NEWFOUNDLAND REGIMENT.

2nd Lt. W. Clare, 1st Bn. was mentioned in a despatch from General Sir Douglas Haig, G.C.B., K.C.E., K.C.V.O., A.D.C., dated 13th November, 1916, for gallant and distinguished services in the field. I have it in command from the King to record His Majesty's high appreciation of the services rendered.

WINSTON S. CHURCHILL,
Secretary of State for War.
War Office,
Whitehall, S.W.,
1st March, 1919.

PROSPERO ARRIVES FROM NORTHWARD

S. S. Prospero, Capt. Field, arrived from the northward yesterday afternoon. She brought a small quantity of freight and the following passengers:—Messrs. Kehoe, Legge, Croker, Bish, Mercer, Lacey, Haytor, Clements, Barnes, Rideout, LeDrew, Headerson, Elliot, Lorrige, Elliot, Wagg, Saunders, Bowering, Earle, White, Parsons, Kean, Lockyer, Woodrow, L. Lockyer, Mesdames Barrett, Eady, Rowe, Ciewett, Peet, Crowther, Oakley, Rowe, Lovridge, Hayward, Earle, Harbour, Snelgrove, Murphy, Sullivan, Brett, Woodrow, Misses Kean, Gale, Rowe, Flynn, Baker, Kieley, Edgar, Middleton, Carroll, Brett, Baird, Lovridge, Earle, Rendell, Snelgrove, Rideout, Lodge, and 60 in steerage.

GIRL MISSING

A girl of 11 years old, residing with friends at Tessier Place, has been missing since Monday night and some anxiety is felt over her absence. It was thought that she had taken shelter in a house in Pleasant Street, which the police are looking after, but a search of there last night proved futile. The police would be glad to learn any information of the missing girl.
